# USER MANUAL

April 2016

[www.livestockgenetics.net/SGBI/output/login](http://www.livestockgenetics.net/SGBI/output/login)

## Introduction

Thank you for choosing Livestock Genetic Services, LCC. This website has been created to assist and make easier your registration and organizational needs of your cattle herd management, as well as, allowing you to enter in performance data and keep accurate records of your herd to increase profit. This manual will guide you through a step by step process for registering your animals, importing data, checking your membership information, and how to create a work order for DNA samples. If you have questions or concerns regarding the website at any time, please email [support@livestockgenetics.net](mailto:support@livestockgenetics.net).

In your web browser, you will type in [www.livestockgenetics.net/SGBI/output](http://www.livestockgenetics.net/SGBI/output). Once, the website has appeared on your screen you will see a box which says Username and Password.

You must type in your correct username and password; **REMEMBER-** the username and password is case sensitive. If you do not have a username /password, this means you will need to register. There is a **Register** icon within the login box- click on register and you will be prompted to another page where you can register as a user. In the event, you have forgotten your username/password please email [support@livestockgenetics.net](mailto:support@livestockgenetics.net) or [Michele@livestockgenetics.net](mailto:Michele@livestockgenetics.net) and we will retrieve that information for you. There is also a Forgot password? icon within the login box you may click, and this will take you to a page where you can reset your password.

Once you have completed the above steps, and have entered in the correct login information- click **submit**.

## Registration

Pictured below is the page you will be brought to after clicking the Submit icon; Active It is on this page you will register any new animals, as well as, look up any animals that have been registered previously. Please follow the steps below to register your animal(s).

## Step 1:

Click on the icon **Register New Animal**. The photo below shows what the page will look like after you click **Register New Animal**. This is the template you will use to register your animal.

The screenshot shows a web browser window with the URL [www.livestockgenetics.net/cgi/output/Animal\\_add.php](http://www.livestockgenetics.net/cgi/output/Animal_add.php). The page features a banner image of a herd of cattle and a logo for 'WWW.SANTAGERTRUDIS.COM'. Below the banner is a registration form titled 'Add Animal - Registration'. The form is divided into three main sections: 'Animal Information', 'Breeding Information', and 'Performance Data'. The 'Animal Information' section includes fields for 'Sex' (with a 'Please select' dropdown), 'Birth Date', 'Registration Date' (set to 04/18/2016), and 'Name'. The 'Breeding Information' section includes fields for 'Dam Registration # (Name)', 'Sire Registration # (Name)', and 'Service Type' (set to 'MS'). The 'Performance Data' section includes fields for 'Birth Weight', 'Wean Weight', 'Yearling Weight', 'Birth Group', 'Wean Date', 'Yearling Date', 'Wean Contemporary Group', and 'Yearling Contemporary Group'. At the bottom of the form are 'Save' and 'Back to list' buttons. The footer of the page contains copyright information: 'Copyright 2012-2016 Livestock Genetics Services, LLC' and contact information: 'For support, email support@livestockgenetics.com'.

Note: If there is a red \* that field is REQUIRED. Registry information will not be saved unless these fields have been properly filled in.

## Step 2:

Insert the Sex of the animal to be registered, Birth Date, the Dam Registration#, the Sire Registration #, and the service type.

### Service types are as follows:

**NS**- Natural Service, **AI**- Artificial Insemination, **ET**- Embryo Transfer, **MD**- Multiple Dam, **TW**- Twin, and **MD-AI**- Multiple Dam/Artificial Insemination

### Step 3:

After filling in the required fields, your page should look like the photo below. If it does not, please review for errors, then click on the icon, **Save**. The website is designed to catch any errors that may occur- if there is an error, it will alert you. If you have any performance data on the animal you are registering, you may enter it prior to hitting save and the information will go in at the time of registration. Don't worry if you don't have the performance data at the present time of registration- you can always go back and insert the data at a later date. Once ready, hit Save at the bottom of the screen. Once saved, you will see the message in red below- your animal is now registered.

The screenshot shows a web form titled "Add Animal - Registration" with a green header and footer. At the top, there are "Save" and "Back to list" buttons. A red message states: "A Star 5 Recordation ( 50% & 25% only) record has been added with registration number 20155464 at a price of \$10." Below this is a confirmation message: "<<< Record was added >>>". The form fields are as follows:

- First Owner:** 1 - KING RANCH INC
- Registration Type:** Registered (dropdown menu)
- Animal Information:** Date Format: 1/1/1950
  - Sex: Bull (dropdown)
  - Birth Date: 1/1/2015
  - Registration Date: 04/18/2016
  - Calf ID: (empty text box)
  - Name: FAKEBULL
- Breeding Information:**
  - Dam Registration # | Name: AR | RED ANGUS
  - Sire Registration # | Name: 201201001010 | MR DOUBLE TT 44 PANCHO
  - Sire DNA on File?: No
  - Service Type: NS (dropdown)
- Performance Data:** Date Format: 1/1/1950
  - Horn: Please select (dropdown)
  - Birth Weight: (empty text box)
  - Birth Group: (empty text box)
  - Wean Weight: (empty text box)
  - Wean Date: (empty text box)
  - Wean Contemporary Group: (empty text box)
  - Yearling Weight: (empty text box)
  - Yearling Date: (empty text box)
  - Yearling Contemporary Group: (empty text box)
- Create User:** j\_breeder
- Create Date:** 4/18/2016

At the bottom, there are "Save" and "Back to list" buttons.

## Membership

To check the status of your membership dues or membership information, you will need to click on the membership icon at the top of the page as pictured below. If you have any questions or concerns regarding your membership status, dues, and/or payments please contact the Santa Gertrudis administration staff directly at

**361-592-9357.**

## DNA Test Orders

To view genomic tests that you have ordered, you will click on the Genomics icon at the top of the website and then you will get the screen pictured below. To order DNA tests, you must contact the Santa Gertrudis Administration staff at **361-592-9357**, and they will advise you on how to complete your DNA order. The photo below shows that there have been no previously ordered DNA tests.

## Traits

The traits page will allow you to view the specific animal, the specific trait, the date the trait was measured and the trait value. To view traits, you must click on the trait icon at the top of the page, as pictured below. To add traits, you will click on the **Add New Trait Record** icon, this will allow you to manually add in each animals' traits to the table below. The system is designed to automatically correlate adjusted values; you will not need to do this manually.

After you arrive at the page pictured above, you will then have a prompt to **Import Traits**, as pictured below. You will then be able to browse and upload a data sheet into the system, remember that the sheet must be saved in a comma-separated .csv or an Excel (.xlsx) format. Note: the .csv file will upload quicker than the Excel spreadsheet depending on your internet speed.

### Import Traits

Drag and drop a comma-separated (.csv) or Excel (.xlsx) file or choose an option below.

When the sheet has uploaded you will be taken to the screen pictured below. Notice the column headers in the first line of the table; the first header in the column is blank and that is because the data sheet that was uploaded has a different column name than the header format below which is ok, you will just need to match up the column header by scrolling down the list above the data

and matching it to the traits table page. In this case, the correct column header is **Registration Number**.

Import Traits

Column headers in the first line  
Date format:

Animal ID	Trait	Trait Date	Trait Value	Create Date
20156000	Weaning Weight	1464739200	550	1459468800

\* Note: The table above is a “Fake” table that was created to allow users to see an example of what the data should look like prior to importing.

Copyright 2012-2016 Livestock Genetic Services, LLC

Pictured above is the scroll down list for the correct column headers and the photo below is what the table will look like once the data sheet is ready to be imported. Once, your table looks like the photo below, you are ready to hit **Import Data** at the left hand corner of the page. The system will then alert that all records have been successfully uploaded or if there is an error. If all the records were processed successfully, you can then go back to the traits page and view your imported data. You can also search by registration number if you are looking for a specific animal. The photo below is what your data table will look like prior to importing if all the column headers match correctly. The photo below is the traits page table and what the data will look like after it has been uploaded successfully.

## Pregcheck and Ultrasound

You will follow the same steps above to import Pregcheck data, as well as, Ultrasound data. You may import manually or import large spreadsheets. Pictured below is what the Pregcheck and Ultrasound import page will look like prior to importing. Once, the data has been uploaded it will look very similar to the traits page, but different data.

Animals » Transfers » Trails » **Ultrasound Import** » Billing » Membership » Genomics » Reports »

Criteria:  all  any

Registration Number :

Scan Date :

**Import**
