BREEDERS GUARANTEE: Cows represented as being pregnancy tested "safe in calf" have been examined and declared safe by a licensed veterinarian and will be accompanied by a veterinarian's certificate to this effect. They are considered breeders without further guarantee. Cows with calves at side shall be considered breeders also without further guarantee. No guarantee is given that a pregnant female will deliver live calves or that she will carry calves full term. The seller is not responsible for damages caused by foreign bodies after the animal has been sold and for sickness not apparent at sale time.
