USING SGBI GENETIC EVALUATION

Santa Gertrudis Breeders International is proud to present the 2026 Sire Directory, showcasing elite genetics from some of the breed's most progressive and forward-thinking breeders. This directory offers a diverse selection of sires designed to add measurable value to both purebred and commercial operations across a wide range of production environments. As America's first beef breed, Santa Gertrudis cattle have a long and proven history of meeting the evolving demands of the cattle industry. From early adoption of genetic evaluation to ongoing, intentional selection for fertility, longevity, efficiency, and performance, Santa Gertrudis breeders remain committed to producing functional, high quality cattle. Today's Santa Gertrudis continue to thrive in some of the world's most challenging environments, combining natural disease and parasite resistance with fast-growing, profitable calves that perform on the ranch and in the feed yard.

The foundation of genetic selection in 2026 continues to be Expected Progeny Differences (EPDs). EPDs are predictions of how an animal's future progeny are expected to perform relative to other animals' progeny recorded in the Santa Gertrudis Breeders International database. These values are expressed in units of measure (plus or minus) consistent with each trait being evaluated and are calculated using pedigree, performance, and genomic information.

Extensive research has demonstrated that EPDs are the most reliable indicator of an animal's true genetic merit. Producers are encouraged to use EPDs to select for traits that best align with their operational goals, while considering environmental conditions and marketing objectives.

SGBI remains an industry leader in genetic evaluation technology. As the first beef breed association to adopt the single-step method for incorporating DNA into EPD calculations, SGBI utilizes genomic information to measure the actual genetic relationships among animals included in each evaluation. In 2013, SGBI released the first genomic-enhanced EPDs for Bos indicus-influenced cattle, setting a standard that continues today.

Incorporating DNA into genetic evaluations results in EPDs that are more accurate and predictable than those based solely on pedigree and performance data. Each month, SGBI integrates genotypes from tens of thousands of animals into its EPD calculations, providing producers with increased confidence that the cattle they select will perform as expected.

Below is a description of the EPDs and selection indexes you will find in the 2026 catalog.

Birth Weight (BW): Indicator of calf size at birth and calving ease.

Weaning Weight (WW): Indicator of growth from birth to weaning, based on adjusted 205-day weights.

Yearling Weight (YW): Indicator of growth from birth to one year of age, based on adjusted 365-day weights.

Milk (MK): Pounds of calf weight at weaning attributable to the dam's milk production.

Total Maternal (TM): Combination of Weaning Weight and Milk EPDs, reflecting a cow's ability to wean a heavier calf.

Scrotal Circumference (SC): Indicator of fertility in bulls and age at puberty in heifers, measured in centimeters.

Heifer Pregnancy (HP): Probability that a heifer will become pregnant as a yearling, reported as a percentage.

Breed Back (BB): Probability that a two-year-old cow will conceive after being pregnant as a yearling, reported as a percentage.

Carcass Weight (CW): Predicted differences in hot carcass weight, expressed in pounds.

Ribeye Area (REA): Indicator of muscling, expressed in square inches.

Marbling (MB): Evaluation of intramuscular fat deposition; a one-unit change equals one full USDA quality grade.

Backfat Thickness (FT): Indicator of fat thickness measured between the 12th and 13th ribs.

Balanced Index: Designed for producers retaining replacement heifers while marketing cattle on the grid or selling feeder calves where carcass merit is valued. This index incorporates all EPDs except Carcass Weight and Backfat.

PERCENTILE RANKING FOR EPD TRAITS

Cow/Calf Index: Intended for operations retaining replacement heifers but marketing calves at or near weaning. This index emphasizes fertility and maternal performance and includes Heifer Pregnancy, Breed Back, Birth Weight, Weaning Weight, Milk, and Scrotal Circumference.

Terminal Index: Designed for producers not retaining replacement heifers and marketing calves on a carcass-based system. This index incorporates Birth Weight, Weaning Weight, Yearling Weight, Ribeye Area, Marbling, and Backfat.

All selection indexes are reported as percentile rankings from 1 to 99, indicating where an animal ranks within the breed. A value of 1 places the animal in the top 1% of the breed, while values greater than 95 indicate the bottom 5%.

Accuracy values accompany each EPD and reflect the reliability of the prediction. Accuracies greater than 0.50 are considered highly reliable. Accuracy increases as additional data are collected, including DNA testing, ultrasound records, and progeny performance. While higher accuracies improve confidence, producers should recognize that genetic variation may still result in individual offspring exceeding or failing to meet expected performance.

If you're breeding Santa Gertrudis show cattle XL's Pendleton 253 should be on your list of sires that'll move the needle. Pendleton is sired by now restricted and highly successful Dreamboat 037E2 and 3X SGBI Dam Of the Year RAR Miss Abigail 1637 who has done so much for the Excell Santa Gertrudis Program. Pendleton 253 is a full brother 2023 National Champion Female XL Cleopatra 008 ET, many times champion and 2025 SGBI High Point female XL's Cambria 247 ET, and many times champion XL's Celine 020 currently running the high point show road. Pendleton himself is the 2023 Junior National Reserve Champion, and 2X Reserve Houston International Champion Bull. HEIFER SEXED AND CONVENTIONAL SEMEN AVAILABLE BOTH DOMESTIC AND CSS INTERNATIONAL EXPORT

Si se dedica a la cría de ganado Santa Gertrudis de exposición, XL's Pendleton 253 debería estar en su lista de sementales que marcan la diferencia. Pendleton es hijo del ahora restringido y exitoso Dreamboat 037E2 y de RAR Miss Abigail 1637, tres veces ganadora del premio a la Mejor Vaca del Año de la SGBI, quien ha contribuido enormemente al programa Excell Santa Gertrudis. Pendleton 253 es hermano de padre y madre de XL Cleopatra 008 ET, Campeona Nacional de 2023; de XL's Cambria 247 ET, varias veces campeona y Vaca de Mayor Puntuación de la SGBI en 2025; y de XL's Celine 020, también varias veces campeona y actualmente compitiendo en los principales concursos. El propio Pendleton fue Subcampeón Nacional Junior en 2023 y dos veces Subcampeón Internacional de Houston. Semen sexado para hembras y semen convencional disponibles para exportación nacional e internacional (certificado CSS).

XL's American Pharoah 303 Is full brother to both the 2024 Open National Champion Female XL's Dreamin Of Gold 240 and the 2025 Junior National Champion Female XL's Golden Dream 304. He's sired by 2024 SGBI Sire Of The Year XL's Midas 355 who sired the 2023 Reserve Junior National Champion Female, 2024 Open National Champion Female, 2025 Open National Champion Female, 2025 Reserve Open National Champion Female, and the 2025 Junior National Champion Female. Pharoah himself was the 2023 Reserve Open National Calf Champion, 2025 Cattleman's Congress Supreme American Bull, and the 2025 State Fair of Texas Champion Bull. Pharoah's Dam, XL's Cleopatra 008 pictured below is arguably the most influential show ring Santa Gertrudis females in the last decade who herself was the 2023 Open National Champion Female and has already produced three National Champion Progeny to date. SEMEN ONLY AVAILABLE FOR EXPORT TO ALL COUNTRIES.

XL's American Pharoah 303 es hermano de padre y madre de XL's Dreamin Of Gold 240, Campeona Nacional Abierta de 2024, y de XL's Golden Dream 304, Campeona Nacional Juvenil de 2025. Su padre es XL's Midas 355, Semental del Año SGBI 2024, quien también es padre de la Campeona Nacional Juvenil de Reserva de 2023, la Campeona Nacional Abierta de 2024, la Campeona Nacional Abierta de 2025, la Campeona Nacional Abierta de Reserva de 2025 y la Campeona Nacional Juvenil de 2025. El propio Pharoah fue Campeón Nacional Abierto de Terneros de Reserva en 2023, Toro Supremo del Cattleman's Congress en 2025 y Campeón de la Feria Estatal de Texas en 2025. La madre de Pharoah, XL's Cleopatra 008 (cuya foto se muestra a continuación), es posiblemente una de las hembras Santa Gertrudis más influyentes en las pistas de exhibición de la última década, siendo ella misma Campeona Nacional Abierta en 2023 y habiendo producido ya tres descendientes Campeones Nacionales hasta la fecha. Semen disponible únicamente para exportación a todos los países.

2023 National Jr. Champion Bull and his pedigree speak volumes to what his genetics can do for your program! Banks pedigree is stacked with National Champions and top performing animals. He's jack necked, long bodied, and well balanced from the side, all while having enough substance and depth to pair well with several types and kinds. Take this opportunity to purchase sexed and conventional semen from this exceptional bull that's already been to the winners circle and will produce offspring that will follow in his footsteps! With his and his parents' track record, the opportunities are endless! Hefte F19 Pure Swagger, sired three National Champions in 2023 including the 2022-2023 SGBI High Point Bull & National Champion Bull, The Valedictorian. KK Sabe's Un Valiente ET 2019 National Jr. Champion, dam of 2021 National Jr. Champion KK Valley Girl, & grand dam of KK The Valedictorian.

El toro Campeón Nacional Juvenil de 2023 y su pedigrí demuestran el potencial que su genética puede aportar a su programa. El pedigrí de Banks está repleto de campeones nacionales y animales de alto rendimiento. Tiene un cuello robusto, cuerpo largo y una excelente conformación, con la sustancia y profundidad necesarias para combinar bien con diferentes tipos de ganado. Aproveche esta oportunidad para adquirir semen sexado y convencional de este toro excepcional que ya ha triunfado en las pistas y producirá descendencia que seguirá sus pasos. Con su historial y el de sus padres, las oportunidades son ilimitadas. Hefte F19 Pure Swagger, padre de tres campeones nacionales en 2023, incluyendo el Toro de Mayor Puntuación SGBI 2022-2023 y Campeón Nacional, The Valedictorian. KK Sabe's Un Valiente ET Campeón Nacional Juvenil de 2019, madre de la Campeona Nacional Juvenil de 2021, KK Valley Girl, y abuela de KK The Valedictorian.

Fuego was purchased as the high selling bull at the 2022 Red Hot Bull Sale. He is moderate and deep bodied with exceptional carcass quality. He is in the top 5% of the breed for WW, TM, CM, REA and MB. Semen is CCS approved and ready for International export, including Australia. A limited amount of sexed female semen is also available. Calf crops are being proven with excellent carcass ultrasounds and outstanding phenotype. Contact Danny Casillas for breeding opportunities and semen sales. Se habla Espanol.

Fuego fue adquirido como el toro de mayor precio en la subasta Red Hot Bull Sale de 2022. Es de tamaño moderado y cuerpo robusto, con una calidad de canal excepcional. Se encuentra entre el 5% de los mejores ejemplares de la raza en cuanto a peso al destete, peso total, peso de la canal, área del ojo del lomo y marmoleo. El semen está aprobado por CCS y listo para la exportación internacional, incluyendo Australia. También hay disponible una cantidad limitada de semen sexado para hembras. Sus crías están demostrando excelentes resultados en ecografías de la canal y un fenotipo sobresaliente. Para oportunidades de reproducción y venta de semen, contacte a Danny Casillas.

 wendtranches@hotmail.com

777 Candyman has taken the show world by storm since being named National Calf Champion and Reserve National Champion in 2023. Candyman was the 2024 National Yearling Champion and the High Point Bull, and is 2025 National Champion, International Champion in Houston, and High Point Bull. He also sired the winner of the 2025 Better Beef Contest at the National Junior Santa Gertrudis Show showing his versatility. He is sired by 777 Honey Badger and his dam, Harris Farms 17/0 "Arkansas," is also the dam of 777 Vegas. Candyman has the bone and power you demand in a bull, but in a super stylish package that is topped by his big, level hip and very extended front end. All of this and the fact that he's sound as a cat and moves so smooth rounds out his phenomenal phenotype. His progeny are already proving his worth as sale toppers and winners in the show ring. Sexed and CSS semen available.

777 Candyman ha revolucionado el mundo de las exposiciones ganaderas desde que fue nombrado Campeón Nacional de Terneros y Subcampeón Nacional en 2023. Candyman fue Campeón Nacional de Añojos y Toro de Mayor Puntuación en 2024, y es Campeón Nacional, Campeón Internacional en Houston y Toro de Mayor Puntuación en 2025. Además, es el padre del ganador del Concurso Better Beef 2025 en la Exposición Nacional Junior de Santa Gertrudis, demostrando así su versatilidad. Es hijo de 777 Honey Badger y su madre, Harris Farms 17/0 "Arkansas", es también la madre de 777 Vegas. Candyman posee la estructura ósea y la potencia que se buscan en un toro, pero con una conformación excepcionalmente elegante, destacando su amplia y nivelada grupa y su imponente tren delantero. A todo esto se suma su excelente salud y su movimiento fluido, lo que completa su fenotipo fenomenal. Su descendencia ya está demostrando su valía, alcanzando los precios más altos en las subastas y obteniendo victorias en las pistas de exhibición. Semen sexado y con certificación CSS disponible.

A pedigree stacked with proven genetics and a phenotype with style and structural soundness - this young bull has it ALL! He's sired by KR 191/13, one of the most proven, consistent bulls in the Santa Gertrudis breed, and that sits on the Proven Sire Leader lists for Heifer Pregnancy, Breed Back, REA and YW. His dam, QVF Ms 75/3 5369G4, is a daughter of the infamous Red Doc 5369, boasting the breed's highest MARB EPD and is a Proven Dam for low birthweights. Take a look at his indexes and EPDs. With his extremely balanced EPD profile, this bull will add performance to his calves without sacrificing power and style. Captain King has been producing quality, low-birthweight calves that have quickly developed into outstanding show calf prospects.

Un pedigree con genética probada, fenotipo con estilo y robusta estructura- este toro Joven lo tiene lobults nuo de rk Isl/ 13, uno de los toros mas probados y más consistentes de la raza Santa Gertrudis. Está en las listas de Toros Líderes Probados para Preñez de Vaquillas, Retrocruzamiento, Area de Ribeye y Peso al Año. Su madre, QVF Ms 75/3 5369G4, es una hija del famoso toro Red Doc 5369, y se jacta de tener el EPD más alto de la raza en marmoleo además de ser una Madre Probada con bajos pesos al nacer. Revise sus indexes y Sus EPDs. Este toro, con su perfil extremadamente balanceado de EPDs, le agregará rendimiento a sus becerros sin sacrificar poder y estilo. Captain King ha estado produciendo becerros de calidad con bajo peso al nacer que rápidamente se convirtieron en sobresalientes prospectos de exposición.

Harris 724M5 ET (AKA Chartwell), Reg. #20245174. Balanced, long-bodied bull with natural muscle, sound structure, and eye appeal. Ranks top 15% WW, 10% YW, 20% Milk, 4% HP, and 20% BB. Actuals: WW 735, YW 1195, REA 13.68, BF 0.43, IMF 4.12, SC 39. Pedigree combines King Ranch influence on the top side with Harris River Bend Farms cow power on the bottom.

Harris 724M5 ET (también conocido como Chartwell), Reg. #20245174. Toro equilibrado, de cuerpo largo, con musculatura natural, estructura sólida y atractivo físico. Se ubica en el 15% superior en peso al destete, 10% en peso al año, 20% en producción de leche, 4% en rendimiento de la canal y 20% en calidad de la carne. Datos reales: Peso al destete 735, Peso al año 1195, Área del ojo del lomo 13.68, Grasa dorsal 0.43, Grasa intramuscular 4.12, Circunferencia escrotal 39. Su pedigrí combina la influencia de King Ranch por parte paterna con la genética de las vacas de Harris River Bend Farms por parte materna.

Korban's Cruz

- A unique breeding opportunity combining the maternal characteristics, growth traits, and longevity of the Santa Gertrudis breed with the docility, consistency, and carcass quality of the Red Angus breed
- Sired by the prolific Santa Gertrudis KR 191, recognized for his exceptional performance, and out of the Brown MS P707 cow, the dam of Oracle and Fantastic, some of the Red Angus breed's most sought genetics
- Balanced Index of 1, Cow-Calf Index of 10, and Terminal Index of 1

CONVENTIONAL SEMEN

If you're looking for a bull that adds pounds to the scale, Rednecker is built for the job. Rednecker was the 2nd high-selling bull of the 2024 Briggs Ranches Bull Sale, coming straight from the heart of the historic Briggs Ranches. He excels in both weaning and yearling weights, bringing raw performance that shows up where it matters most. This bull is long as a freight train, sound from the ground up, and built to last. He'll stamp a long clean frontend, structurally correct and balanced progeny while adding power and growth to your calf crop. A true outcross, Rednecker offers fresh genetics with proven results—no fluff, just horsepower.
